## An industrial underfloor heating system in fact

Headquarters of the company Eurom located in Brno Slatina includes administrative, storage and production facilities. It is a standalone building hall type, which is divided into two parts. The first part consists of administration and facilities. The second part consists of single-storey building with two-aisle production hall (the building footprint 78 x 36 m). Throw the center of each vessel leads communication area, around which individual manufacturing cells are concentrated. Both vessels are heated by an industrial underfloor heating system.

Underfloor heating: Uponor PE-Xa pipes 25 x 2.3 mm in clamp track

Floor Construction: Double Layer, steel fibre concrete.
