

## Meander

### Участие на Уропор

113,000 m2 | 70,000 m2

## Meander

Large, modern and fitted with the latest in air conditioning technologies. In 2012, construction work got underway on a new world class hospital on Maatweg in the Dutch city of Amersfoort. The building has since been handed over, and patients can now be better accommodated than at the old sites in Amersfoort.

### Факти за проекта:

Location

Amersfoort, Netherlands

Завършване

2013

Тип сграда

Municipal

Product systems

Лъчисто отопление и охлаждане

Адрес

Meander Medical Centre

Тип на проекта

Нова сграда

### Партньори

Fitters: Burgers Ergon

Installatietechniek

The Meander Medical Centre's two old buildings were 50-60 years old. As the hospitals were highly antiquated, the decision

was made to build a new one. The new-build site replaces the old sites and houses the latest technology. This will once again enable the hospital to go on far into the future. Using techniques including concrete core activation a pleasant, comfortable and healthy living environment is being created for both patients and staff. Patient welfare, after all, is not dependent on doctors alone, but also on the environment.
