Technical data

Material	HDPE
Subcomponent Material	Sleeve: Corrugated high-density polyethylene (HDPE) outer jacket with smooth interior wall Heat shrink seal: As manufactured by Raychem® or equivalent

Product information and application use

Wall Sleeve with Heat Shrink Kit is a wall-penetration accessory to ease installation of Ecoflex® piping. The kits are used for new block construction or irregular holes drilled through existing walls. Created for convenience and compatibility, this product offers another way to save time and installation costs.

Installation

This product can be stored outside without damage. Refer to the Uponor Pre-insulated Pipe Systems Design and Installation Manual for more information

Related applications

- Radiant Heating and Cooling Systems
- Permafrost Protection Systems
- Turf Conditioning Systems
