

# Wireless digital thermostats

## Project information

Job name:	Location:
Engineer:	Date submitted:
Contractor:	Submitted by:
Manufacturer's representative:	Approved by:

## Technical data

Prop 65 label required? Yes

## Product information and application use

The Uponor Climate Control Zoning System II is a true wireless zoning control for radiant floor heating and other hydronic heating applications. The Wireless Digital Thermostat (T-167) includes a sensor for temperature measurement for optimal comfort and efficiency of a radiant-heated space and an optional terminal for connecting a floor sensor. The Wireless Digital Thermostat will display ambient and floor (if installed) temperatures, humidity and low-battery indication and is back lit. The display units can be changed from Fahrenheit to Celsius and the set temperature can be adjusted from 41°F (5°C) to 96°F (35.6°C).

Part name	Part no.	Weight per UOM [lbs/UOM]
Wireless Digital Thermostat (T-167)	A3800167	0.31

## Installation

Installation must comply with local codes. Refer to the Uponor Climate Control Zoning System II installation and operation manual or the Uponor Climate Control Zoning System II instruction sheet for additional information.

## Related applications

Radiant heating systems  
Permafrost Protection Systems  
Turf Conditioning Systems
