Product information and application use

Use the Smatrix Pulse Antenna (A-265) replacement part to replace the antenna in the A380265A Smatrix Pulse Controller with Antenna. Smatrix Pulse provides precise wireless control of radiant floor heating as well as forced-air heating and cooling systems in one solution. The A380265A Smatrix Pulse Controller (X-265) with Antenna (A-265) connects up to six (6) thermostats and eight (8) actuators. The controller operates the actuators, which, in turn, affect the flow of the supply water to change the indoor temperature using information transmitted from the registered thermostats and system parameters.
