Material	Aluminum Laminate w/XPS Foam
Operating temperature min. [°F]	50 °f
Operating temperature max. [°F]	150 °f
R value	3.13
Prop 65 label required?	Yes

Product information and application use

Designed for residential new construction and remodels, Xpress Trak™ is a radiant panel that features lightweight XPS foam laminated with aluminum for exceptional heat-transfer capability. Straight runs and return bends are integrated into one panel for quick, easy ordering. To install, simply adhere the panels to a wood subfloor or a concrete slab.

Installation

Use water-based sealant to adhere the panels to a wood subfloor or a concrete slab. Then, press the 5/16" Wirsbo hePEX™ pipe into the panel grooves using hands or feet. For further information, refer to the Xpress Trak Installation Guide.

Related applications

Radiant heating
