

## Uponor Base condensation set S-80 230V

**1140221**

- Condensation set suited for condensation control

- Functions:

- evaluates received dew point information and activates integrated contact when dew point is reached
- supports up to 5 dew point sensors
- sensor suited for installation in plastered ceilings/walls or cold-water pipe conduits
- recommended condensation set for X-80 for cooling applications

- Options:

- installation on external DIN rail
- operating voltage: 230V / 50-60 Hz

- Consisting of:

- 230V converter dew point
- Sensor dew point

## Application information Uponor Base condensation set S-80

### Specification

- 230V standard wiring
- common wiring method and controls logic
- easy integration to standard on/off time control
- optional: pump logic

### Application

- wired room temperature control for radiant heating

### Certification

- CE, UKCA
