

GF Silenta 3A parallel branch AMS 87,5deg 90-50mm

1185536

Light blue, PP-material with inorganic filler, according to EN 1451

Application information GF Silenta 3A parallel branch AMS 87,5deg

Specification

- Silenta 3A is a sound-insulating 3-layered soil and wastewater pipe system made of PP material which is specially formulated and reinforced for non-pressurized domestic drainage in accordance with System Standards of DIN EN 1451, DIN 4109 and DIN 4102. Silenta 3A has high performance in all places that require impact, durability and sound protection. The pipe diameters range from 32 mm to 200 mm. The system also includes bases and fittings with additional accessories.

Application

- Office buildings, conference halls, and similar facilities
- Schools, libraries, hospitals, hotels, and residential buildings
- Sustainable and green buildings
- Industrial facilities for both short- and long-term applications
