- 8 Phyn Plus smart water assistants

Sustainable tourism requires action

Phyn Plus smart water assistant monitors water consumption in the rental cottage
Hawkhill, located next to Nuuksio National Park in Vihti, has been offering nature-friendly cottage holidays for almost 60 years. In a company striving to lead the way in sustainable tourism, the environment is taken into account in all its activities. Monitoring water consumption is also an essential part of a sustainable business - intelligent Phyn Plus water assistants ensure that monitoring is easy and that the domestic hot water pipelines are safe from water damage.
