

Clarion Hotel® Arlanda Airport Terminal chose Uponor underground ventilation

Uponor involvement

- ✓ Underground ventilation pipes and fittings dimension 1200 mm
- ✓ Design and calculations
- ✓ Welding services

Clarion Hotel® Arlanda Airport Terminal chose Uponor underground ventilation

Saving of buildable space

Clarion hotel Arlanda Airport Terminal is Scandinavia's closest meeting place. It is a first-class hotel in the middle of Arlanda Airport on 14 floors with 44 meeting rooms and 430 hotel rooms.

Project Facts:

Location	Floor space	Completion
Stockholm, Sweden	30 000 m ²	2012
Building Type	Product systems	Number of floors
Hotels	Ventilation	14

Project Type

New building

Underground ventilation installed outside the building save indoor space

The hotel's total area is 30,000 m². These areas include a building with two technology rooms that supply the hotel with preheated air via ventilation ducts in the ground - a cost-effective and smart choice compared to a traditional solution that takes up a lot of buildable space.

Uponor Infra delivered a designed system of pipes and fittings in dimension 1200 mm, completely according to the customer's needs.

Clarion Hotel® Arlanda Airport Terminal chose Uponor underground ventilation

Benefits of working with Uponor Infra

- Uponor Infra delivered a specially designed system completely according to the customer's needs
 - Large savings of space
 - Underground ventilation meant that the pipes did not have to be transported inside the building.
-

-
- Specially designed products
