

GF Malleable Fittings hexagonal nipple 280 1 B

1154059

Hexagon nipple, ISO/EN N8

- ST ... these types of fittings are made from steel (galvanised finish = electroplated) and not suitable for drinking water installations.

About GF Malleable Fittings hexagonal nipple 280

Specification

- With their extensive history and tradition, malleable cast iron fittings are the most common pipe fittings. Because of their durability and mechanical strength, these fittings are very popular. The material is able to endure high mechanical stress and when combined with the standardized jointing method can be used in a wide range of applications.

Application

- Sanitary, heating and gas installation, mechanical engineering (oil, cool pipework), construction of petrol stations (gas lines), sprinkler
