## Product information and application use

Commercial engineered polymer (EP) branch multi-port tees feature an integrated  $^34$ " or 1" ProPEX® inlet with  $^12$ " ProPEX branch outlets, or a  $^114$ " ProPEX® inlet with  $^34$ " ProPEX branch outlets. Designed for commercial plumbing applications, they eliminate the need for multiple connections. The  $^34$ " and 1" multiport tees come with mounting clips featuring Phillips self-tapping screws

Note: Temperature and pressure ratings stated are hydrostatic ratings. For domestic hot-water (DHW) and DHW recirculation installations, operating conditions should not exceed 140°F (60°C) at 80 psi (5.5 bar) in accordance with ASTM F2023. For additional information regarding application-specific temperature and pressure ratings, refer to the Uponor PEX Piping Systems Design and Installation Manual

Installation Related applications

The  $^3\!4$ " and 1" multi-port tees feature mounting clips with self-tapping screws, which are appropriate for wood or metal studs. Simply attach the clips to the multi-port tee and fasten the clips to the mounting surface. For the  $1^1\!4$ " multi-port tee, mount the tee by securing all adjoining PEX pipes to the framing or support structure within 6" of each ProPEX connection. For more information, refer to the Uponor Piping Pocket Guide.
