## Product information and application use

The Engineered Plastic (EP) Heating Manifold End Cap with Vent and Drain (A2671250) allows filling and purging at the EP Heating Manifold for use in hydronic radiant heating and cooling systems. Only use propylene glycol in radiant systems with EP Heating Manifolds; never use methanol or ethylene glycol.

Installation Related applications

Hand-tighten the end cap to the manifold. For additional information, refer to the instruction sheet. Note: Use only propylene glycol in radiant heating and cooling systems with EP Heating Manifolds; never use methanol or ethylene glycol. Refer to the EP Heating Manifold Installation Guide for a complete chemical compatibility list.
