Product information and application use

The Milwaukee® M18™ FORCE LOGIC™ 2" to 3" ProPEX® Expansion Tool Kit combines the M12™ and M18™ ProPEX® Expansion Tools to deliver the industry's most consistent commercial installations. The expander's powerful hydraulic system expands up to 3 in. Uponor® ProPEX®. Like its M12™ and M18™ predecessors, the cordless expansion tool features an auto-rotating head letting you expand pipes uniformly and maximize installation speed. A single trigger pull initiates the tool to rotate, expand, and reset automatically, ensuring you achieve consistency across the entire installation. The pipe expander's intelligent design provides you with the optimal balance in overhead connections and can also be flipped over to sit squarely on a table-top for extended use on-site or in the shop. MILWAUKEE® ONE-KEY™ Technology lets you track your tool within 100 ft. range of any phone with the ONE-KEY™ App. You can also view tool usage, receive notifications for recommended maintenance, and sync information wirelessly to the cloud.

The kit includes the Milwaukee M18 FORCE LOGIC ProPEX Expansion Tool; two M18 REDLITHIUM XC 9.0 extended-capacity battery packs; M18 and M12 multi-voltage charger; 2", 2½" and 3" expansion heads; 150g ProPEX expander cone grease; side handle; and a carrying case.

Note: All standard Uponor expander heads are compatible with the M12 and M18 tools. Uponor expander heads will not auto-rotate on the Milwaukee tools (only Milwaukee expansion heads will auto-rotate on the M12, M18 and M18 FORCE LOGIC). H-heads are not compatible with Milwaukee tools and Milwaukee heads are not compatible with Uponor tools. Milwaukee heads are easily distinguished by color coding and the Milwaukee logo.

Purchase Milwaukee ProPEX expansion tools for use with Uponor systems by contacting Milwaukee at 800.729.3878 or visiting www.milwaukeetool.com/propex.
