Prop 65 label required? Yes

Product information and application use

Straight insulation kits make an insulated straight connection of single or twin-style pre-insulated pipe products with a jacket size of 5.5", 6.9" and 7.9". The kit features two shells, stainless-steel bolts, plastic pins and joint-sealing compound. Use with Uponor rubber end caps only.

| If needed, install reducing sockets before couplings. Conduct hydraulic pressure test after installing couplings. Use Ecoflex rubber end caps (required) at all ends of the piping system to ensure insulation integrity.
