## Product information and application use

The Uponor Climate Control Zoning System II is a true wireless zoning control for radiant floor heating and other hydronic heating applications. The Wireless Base Unit (X-165) includes the main module that can connect up to six thermostats with eight actuators. The kit includes a base unit, mounting hardware, DIN rail, removable antenna and antenna cable, along with an installation and operation manual and instruction sheet (available in English and French).

| Installation must comply with local codes. Refer to the Uponor Climate Control Zoning System II installation and operation manual or the Uponor Climate Control Zoning System II instruction sheet for additional information. | Radiant heating systems <br> Permafrost Protection Systems <br> Turf Conditioning Systems |

## Notes

6 thermostats maximum
6 actuators maximum
Power supply:
24 VAC +10/-15\%; 50/60 Hz
Transmitter duty cycle: $<1 \%$
