	Product information and application use			
	Use the Smatrix Pulse Antenna (A-265) replacement part to replace the antenna in the A380265 Smatrix Pulse Controller with Antenna. Smatrix Pulse provides precise wireless control of radiar floor heating as well as forced-air heating and cooling systems in one solution. The A380265A Smatrix Pulse Controller (X-265) with Antenna (A-265) connects up to six (6) thermostats and ei (8) actuators. The controller operates the actuators, which, in turn, affect the flow of the supply v to change the indoor temperature using information transmitted from the registered thermostats			

system parameters.
