

1/2" Uponor AquaPEX White, 100-ft. coil

F1040500

Use Uponor AquaPEX® white pipe in domestic hot, cold, and hot-water recirculation systems as well as AquaSAFE™ residential fire safety systems. The pipe is available in sizes from 1/4" to 3" in various coil lengths. It is also suitable for use in hydronic heating and/or cooling applications where the system contains no ferrous corrodible components or where any ferrous components are isolated from the pipe.

For use in residential fire safety systems, refer to [Uponor AquaPEX white coils for residential fire sprinkler systems](#).

1/2" Uponor AquaPEX White, 100-ft. coil**F1040500****Dimensions**

Inner diameter coil [inch]	15.75 inch
Inner diameter coil [mm]	400.05 mm
Outer diameter coil [inch]	23.5 inch
Outer diameter coil [mm]	596.9 mm
Coil width [inch]	3.5 inch
Inner diameter pipe [inch]	0.475 inch
Inner diameter pipe [mm]	12.07 mm
Outer diameter pipe [inch]	0.625 inch
Outer diameter pipe [mm]	15.88 mm
Weight per UOM [lbs/UOM]	6 lbs/uom
Weight per UOM [kg/UOM]	2.722 kg/uom

Technical Data

Material group	PEX
Operating Temperature 1 [°F]	73 °F
Operating Temperature 2 [°F]	180 °F
Operating Temperature 3 [°F]	200 °F
