## Technical data

Material Metal

## Product information and application use

Snap the tubing into the Metal Bend Support at the beginning of the bend. Continue the bend through the support and snap the tubing into the support at the end of the bend. Refer to the Uponor AquaPEX® Professional Plumbing Installation Guide or the Uponor Radiant Floor Heating Installation Handbook for additional information.

| Part name               | Part no. | A<br>[inch] | B<br>[inch] | C<br>[inch] | D<br>[inch] | E<br>[inch] | F<br>[inch] | Subcomponent Material | Weight per UOM<br>[lbs/UOM] |
|-------------------------|----------|-------------|-------------|-------------|-------------|-------------|-------------|-----------------------|-----------------------------|
| 3/8" Metal Bend Support | A5110375 | 3.176       | 3.176       | 0.63        | 2.857       | 1.811       | 0.64        | SPHC steel            | 0.04                        |
| 1/2" Metal Bend Support | A5110500 | 3.583       | 3.583       | 0.807       | 3.169       | 2.352       | 0.827       | -                     | 0.1                         |
| 5/8" Metal Bend Support | A5110625 | 4.98        | 4.98        | 0.984       | 4.488       | 3.079       | 1.033       | -                     | 0.16                        |
| 3/4" Metal Bend Support | A5110750 | 6.43        | 6.43        | 1.181       | 5.827       | 5.276       | 1.177       | -                     | 0.32                        |

## Installation

Snap the pipe into the metal bend support at the beginning of the bend. Continue the bend through the support, and snap the pipe into the support at the end of the bend. Refer to the Uponor Piping Systems Installation Guide or the Uponor Radiant Floor Heating Installation Handbook for additional information.
