

## Clarion Hotel® Arlanda Airport Terminal chose Uponor underground ventilation

### Uponorin osallistuminen

- ✓ Underground ventilation pipes and fittings dimension 1200 mm
- ✓ Design and calculations
- ✓ Welding services

## Clarion Hotel® Arlanda Airport Terminal chose Uponor underground ventilation

### Saving of buildable space

Clarion hotel Arlanda Airport Terminal is Scandinavia's closest meeting place. It is a first-class hotel in the middle of Arlanda Airport on 14 floors with 44 meeting rooms and 430 hotel rooms.

### Projektin tiedot

Sijainti	Lattiatila	Valmistuminen
Stockholm, Sweden	30 000 m <sup>2</sup>	2012
Rakennustyyppi	Tuotejärjestelmä	Kerrosluvu
Hotellit	Radonin poisto	14
Projektityyppi		
Uudisrakentaminen		

## Underground ventilation installed outside the building save indoor space

The hotel's total area is 30,000 m<sup>2</sup>. These areas include a building with two technology rooms that supply the hotel with preheated air via ventilation ducts in the ground - a cost-effective and smart choice compared to a traditional solution that takes up a lot of buildable space.

Uponor Infra delivered a designed system of pipes and fittings in dimension 1200 mm, completely according to the customer's needs.

### Clarion Hotel® Arlanda Airport Terminal chose Uponor underground ventilation

#### Benefits of working with Uponor Infra

- Uponor Infra delivered a specially designed system completely according to the customer's needs
- Large savings of space

- 
- Underground ventilation meant that the pipes did not have to be transported inside the building.
  - Specially designed products
-
