Dervus Modular Volumetric Systems

Construction of residential buildings has become much easier than you have imagined before thanks to Modular Volumetric Systems technology provided by company DERVUS Design.
Construction of residential buildings has become much easier than you have imagined before thanks to Modular Volumetric Systems technology provided by company DERVUS Design.

Projektin tiedot

Sijainti	Lattiatila	Valmistuminen
Kyiv Region, Ukraine	116 m2	2020

Rakennustyyppi	Tuotejärjestelmä
Pientalo	PEX-putkijärjestelmät

Verkkosivu	Projektityyppi
https://www.dervus.ua/	Uudisrakentaminen

Yhteistyössä mukana

Production company "Dervus Design"

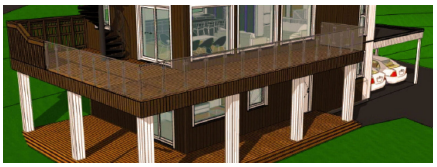

The modules are produced at the DERVUS factory with interior and exterior finish, have door and window assemblies installed and are even fitted with furniture and a kitchen, which minimizes the work to be performed at the construction site.

All decisions implemented by DERVUS are developed taking into account the fact that the Modular Buildings will be transported and connect to the networks on-site. At the same time, the versatility and efficiency of the such building help to save time and money while creating a unique solutions meeting all the requirements of the Customer.

Development of design and installation solutions of water supply system in modular buildings is produced taking into account all regulations of the country where the construction site is located. That is why all products used to create modular buildings have international Certificates of Conformity in order to satisfy customer from any country.
