Données techniques

Prop 65 label required? Yes

Informations sur le produit et utilisation de l'application

The Ecoflex® Connection Vault provides a fully watertight, insulated enclosure for multiple straight-through and branch underground connections. This product is designed to eliminate the need for multiple branch connections, saving installation time and cost. Step-down outlets are compatible with the majority of Ecoflex piping. Note: End Caps are required at all ends of the piping system to ensure insulation integrity.

| Nom de la pièce                    | Numéro de pièce | Weight per UOM [kg/UOM] |
|------------------------------------|-----------------|-------------------------|
| Ecoflex Connection Vault, 6 outlet | 1018326         | 49.895                  |
| Ecoflex Connection Vault, 8 outlet | 1018327         | 52.163                  |

| L'installation                                                                                                                                                                                                                                                | Applications connexes                                                                             |
