

## Hot tap water delivered energy efficiently

### Implication d'Uponor

- ✓ 7 Uponor Combi Port heat exchange units, Uponor radiant underfloor heating system, Smatrix Move and Smatrix Wave Pulse room control systems, Ecoflex Thermo Twin local heat distribution pipelines

## Hot tap water delivered energy efficiently

Combi Port heat exchanger units were selected for seven apartment buildings made of logs in Oulu.

The decentralized system is a new, energy-efficient approach to distributing hot tap water and heat to homes. The solution was implemented in seven detached houses that have just been completed in Oulu: only heating water and hot tap water are supplied to the houses. The rest is handled by each house's own heat exchanger. The result is living comfort and a significant reduction in heat loss.

### Connaissance du projet

Location  
Oulu, Finland

Achèvement des travaux  
2020

Type de construction  
Maison individuelle

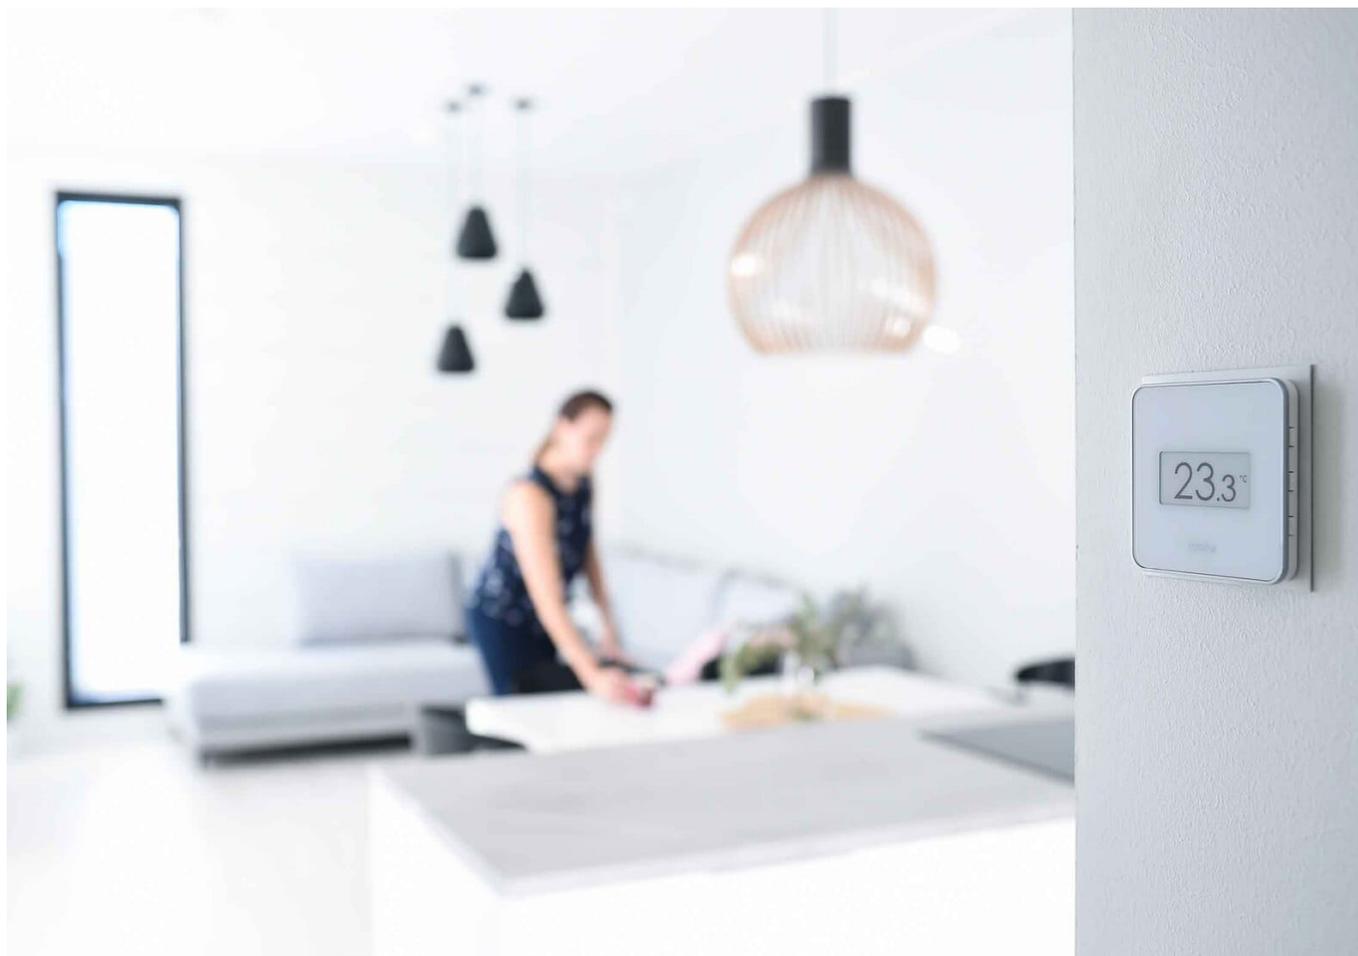

Product systems  
Port

Type de projet  
Nouveau bâtiment

### Partenaires

Contractor: Jopera Oy  
HVAC designer: Taitoplan Oy  
Installer: LVI-Japexit Oy
