

## Water service solutions

# 50 YEARS OF PROVEN PERFORMANCE

With decades of service and 17 billion feet of pipe installed around the world, Uponor AquaPEX® plumbing systems are the reliable piping solution professionals trust.

Uponor water service pipe, fittings and valves provide faster, easier solutions for quality and confidence on every project.

### A system more contractors around the country trust

- Meets the International Plumbing Code (IPC) requirements and the AWWA C904 listing for water service
- Holds the highest chlorine resistance rating per ASTM F2023
- Water Quality Association (WQA) Gold Seal certification for greatest durability in freezing conditions
- Strong, durable ProPEX® fittings offer reliable, solid connections for a system you and your customers can count on
- Nationwide network of distribution and technical support to keep your projects on schedule and your customers satisfied

## INSTALLER ADVANTAGES

### FASTER, EASIER INSTALLS

With lightweight, long coils approved for direct burial without the need for sleeving and a quick, reliable connection method that is easy to learn, you have a complete system that meets your needs.

### GREATER RELIABILITY

Uponor PEX-a withstands harsh soil conditions without corrosion, and the flexible pipe allows fewer required connections for greater system performance.

### CONFIDENT QUALITY

Backed by a 25-year transferable limited warranty means you can feel confident the system you're installing is designed to last.
