Meander

Large, modern and fitted with the latest in air conditioning technologies. In 2012, construction work got underway on a new world class hospital on Maatweg in the Dutch city of Amersfoort. The building has since been handed over, and patients can now be better accommodated than at the old sites in Amersfoort.

Projekt adatok:

Location	Kész
Amersfoort, Netherlands	2013
Épület típusa	Product systems
Nyilvános épület	Felület fűtés/hűtés
Cím	Projekt típusa
Meander Medical Centre	Újépítés

Partnerek

Fitters: Burgers Ergon Installatietechniek

The Meander Medical Centre’s two old buildings were 50-60 years old. As the hospitals were highly antiquated, the decision

was made to build a new one. The new-build site replaces the old sites and houses the latest technology. This will once again enable the hospital to go on far into the future. Using techniques including concrete core activation a pleasant, comfortable and healthy living environment is being created for both patients and staff. Patient welfare, after all, is not dependent on doctors alone, but also on the environment.
