The Leon-Service Plus Office

Betrokkenheid van Uponor

- Surface heating, cooling, and water supply systems.
- Uponor's technical department assisted with the creation of design plans and the selection of products for their implementation.

The Leon-Service Plus Office

Uponor systems were selected to provide water supply, heating, and cooling for the office, making it possible to eliminate radiator heating in the building.
Leon-Service Plus represents products from over 40 leading European manufacturers in Ukraine, including companies from Italy, Germany, the United Kingdom, France, Spain, and Poland. The company has been working with Uponor for nearly 10 years. Therefore, it was particularly valuable for Uponor that our solutions were chosen when selecting systems for water supply, heating, and cooling. The use of surface heating systems made it possible to eliminate radiators and significantly expand the building’s design possibilities.

Projectgegevens:

Location	Vloeroppervlak	Afronding
Kyiv, Ukraine	Approximately 1,000 square meters	2022
Type gebouw	Product systems	Aantal verdiepingen
Kantoorgebouw	Apkure & Dzesēšana, Lokanu cauruļvadu sistēmas	4

Partners

The installation of the building services systems at the site was carried out by ITT.
