Stylish rock home was renovated with practical viewpoint

Sipe Santapukki's appartment in the small multi story building that was built in 1930's was renovated thoroughly. Practicality, intimacy and energy efficient were the starting point for the renovation. Uponor's underfloor heating system and Drain gully system was chosen for the renovation.

Sipe Santapuki, from the famous Finnish band called Apulanta, and his family were looking for that perfect house for a long time. When one finally was found, the renovation was extensive. Small apartment building was built in 1930's and renovated in the 80's so there was a need for profound renovation.
