The Leon-Service Plus Office

Vključenost Uponsorja

- ✔ Surface heating, cooling, and water supply systems.
- ✔ Uponsor's technical department assisted with the creation of design plans and the selection of products for their implementation.

The Leon-Service Plus Office

Uponsor systems were selected to provide water supply, heating, and cooling for the office, making it possible to eliminate radiator heating in the building.

Leon-Service Plus represents products from over 40 leading European manufacturers in Ukraine, including companies from Italy, Germany, the United Kingdom, France, Spain, and Poland. The company has been working with Uponsor for nearly 10 years. Therefore, it was particularly valuable for Uponsor that our solutions were chosen when selecting systems for water supply, heating, and cooling. The use of surface heating systems made it possible to eliminate radiators and significantly expand the building's design possibilities.

Dejstva o projektu:
