## Demo smart house «IC Smart HOUSE live»

### Vključenost Uponsorja

- ✔ To ensure efficient microclimate in the building ceiling system for heating and cooling, Uponsor Renovis, was mounted in the building. IC Smart HOUSE live was the first platform where was installed and tested Phyn Plus.

## Demo smart house «IC Smart HOUSE live»

Demo smart house «IC Smart HOUSE live»

In 2013 the first intelligent demo smart building in Ukraine was built. It became the unique smart platform with an area of 600 sq.m. which implements all innovative solutions, tests equipment from European and Ukrainian manufacturers and fulfill the full cycle of intelligent automation systems implementation.

To provide comfort and sustainability in the building was chosen Uponsor Renovis, a ceiling heating and cooling system. The heat carrier is water, which is heated by solar energy accumulated by solar panels. To increase the efficiency of the system was also integrated a smart control system, which allowed to setup and adjust the parameters of the microclimate in the building. In 2020, the smart home became the first platform in Ukraine where was installed and tested Phyn Plus.

This unique demo smart building provide the ability to participate in a live demonstration of smart systems functioning, to see the sustainability and efficiency of intelligent and innovative engineering solutions provided by Uponsor and other companies which could be efficiently implemented into humans life being.

### Dejstva o projektu:

Location	Površina objekta	Zaključek
Kyiv, Ukraine	600	2013
Vrsta objekta	Product systems	Število nadstropij/etaž
Poslovni objekt	Ploskovno ogrevanje in hlajenje, Control engineering	3

Vrsta projekta

Novogradnja

## Partnerji

INTELCITY is a leading integrator of complex automation systems for residential and commercial buildings. The company has been operating since 2003, and during this time has implemented many successful projects in Ukraine, Europe and Asia.
