In a beautiful country-side, near Montevarchi, in the heart of Tuscany, installer Sandro Menga decided to renovate a rural house for his family to live in, using different Uponor solutions to better suit the demands of building.

Being an expert in the field, Mr. Menga decided to use three different Uponor solutions in order to make the best of both Uponor technology and the internal spaces of this renovated home.

Uponor Minitec and Uponor Pre-formated Black were installed on the ground floor, which holds a living room, a bathroom and pantry.

The largest and most important parte of the house if on the main floor which holds the bedrooms and the family room.

For this floor, they decides to install Uponor Gypsum, the Uponor solution for ceiling heating and cooling
