

# Radiant heating & cooling, plumbing and local heat distribution

## Product Catalogue August 2023

uponor

# ➤ Build on Uponor solutions

Uponor provide innovative and reliable plumbing and heating solutions for all building types. Our products are recognised the world over as being at the forefront of technology and manufacturing quality.

The Uponor ethos of offering 'complete solutions' means that we are able to transport water from the point of supply to the point of consumption. Whether it's transporting energy around a district heating system, or providing the cleanest, most hygienic drinking water. We help our customers in construction to build sustainable projects, faster and smarter.

- Single family home
- Hotels
- Industrial
- Multi storey residential
- Commerical
- Healthcare
- MMC
- Local Authorities
- Social Housing

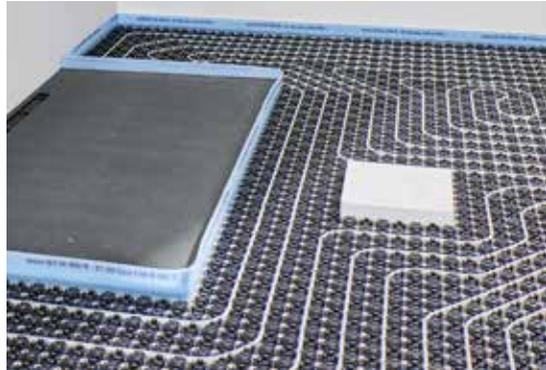

## Flexible Plumbing Systems

Uponor's plumbing solutions are fast to install, flexible, hygienic and corrosion resistant. These solutions are designed for use in heating, cooling and drinking water applications.

## Underfloor Heating & Cooling

Uponor offers a wide range of underfloor heating and cooling solutions for both commercial and domestic installations. Ideal for use with environmentally sound renewable technologies, our systems offer a high energy efficiency, whilst providing maximum comfort for the building occupants.

## Ecoflex Pre-insulated Pipe

With over 25 million metres installed worldwide, Uponor Ecoflex pipes have proven to be a highly economical and an energy efficient choice for the transportation of heating and portable water.

## Siccus Mini

Uponor now offer a NEW low height dry UFH system suitable for low water temperature energy systems.

The Siccus Mini system uses a 9.9mm PEX pipe which lays in an XPS insulated board providing heat outputs up to  $80\text{w}/\text{m}^2$  with MWT @ 35-40C. The UFH system construction height is 15mm or 22mm and can be used for direct flooring on panel with laminate & parquet, with extra layer for tiles and natural stone.

Page 67

## Ecoflex HP Packs

Introducing our new Ecoflex HP packs for easy connectivity for externally installed Heat Pumps to buildings. The pack consists of an Ecoflex Thermo Twin HP heating pipe, 2 pieces of Quattro rubber end caps, 4 pieces of couplings and 30m of Trench warning tape.

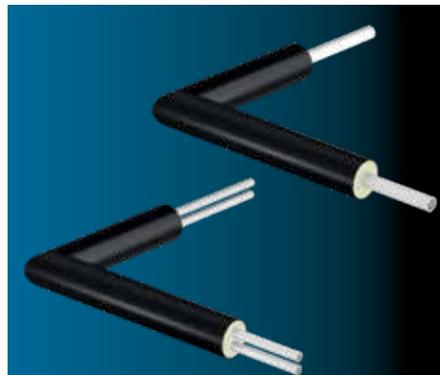

Page 103

## Ecoflex House Connection Elbows

Uponor are introducing a NEW range of Ecoflex House connection sets allowing preparation of installations with first fix concept. The new products are available in single pipe or twin pipes. Pre-insulated PE-Xa pipe 90° elbows. Max. load 6 bar/95C PUR Foam insulation with PE casing.

# ➤ Supporting customers with their environmental footprint and sustainability transition

We design solutions with transparent carbon footprint and low operational impact on the environment. For us, a sustainable solution equals a long service life and the highest product quality.

- Efficiently and safely supplying water to customers
- Products and systems designed for energy saving and optimal water movement
- World's first PEX pipe made with renewable raw materials
- Environmentally friendly packaging that is easy to recycle and low production emissions

uponor | Moving  
➤Water

# ➤ Uponor: Helping with water security in India

In collaboration with the Mumbai-based Raah Foundation, Uponor Europe Division is helping to bring consistent access to clean water to rural villages.

Despite high rainfall the Marharashtra region has inadequate structures for water storage. Uponor has helped bring consistent access to safe clean water by:

- Supporting the construction and repair of check dams
- Building and repairing wells and borewells in villages
- Creating additional water sources to improve quality of life and health

# ➤ Build on Uponor: committed to a more sustainable future

At Uponor, we have a long-standing commitment to sustainability. We take our responsibility seriously and set industry-leading targets to minimize our impact on the environment.

We are committed to all of the UN's 17 sustainability development goals and have identified four that we can truly contribute to, and make a meaningful impact towards.

- Clean water and sanitation
- Decent work and economic growth
- Responsible consumption and production
- Climate action

## Supporting the UN Sustainable Development Goals

# ➤ Our journey towards: carbon neutrality

Climate change and scarcity of resources are burning topics in building and construction industry. The built environment is resource intensive and, is responsible for close to 40% of global energy-related greenhouse gas (GHG) emissions.

At Uponor, we comprehensively track and cut our greenhouse gas (GHG) emissions to achieve carbon neutral operations.

- We use Science Based Targets on our path to reduce carbon emissions
- Our global share of certified green electricity is 93% and we will reach 100% latest by 2025
- We handle plastic responsibly – increasing the use of recycled plastic and pursuing responsible on-site collection separation and recycling of packaging materials

# ➤ Learning with Uponor: plumbing installation training available

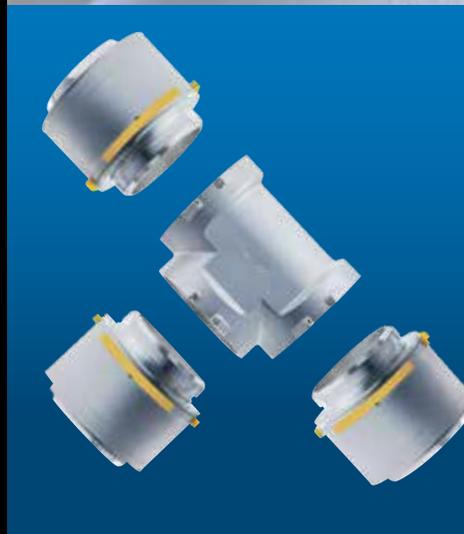

For more information on our  
FREE plumbing installation  
training, please email

# Multilayer Plumbing Systems

100% oxygen diffusion resistant composite pipes for use with heating water, chilled water and domestic services. For smaller pipe sizes, Uponor uses a unique construction technology to manufacture the pipe. SAC technology (Seamless Aluminium Composite) allows the pipe to be bent in a much tighter radius, and coiled pipes are even more flexible than the standard MLC

## RTM™ Technology

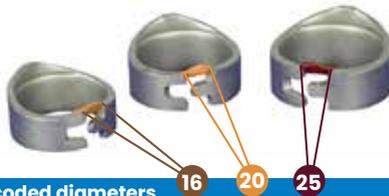

RTM is ideal for new build projects, renovation projects and system repairs. It's quick, safe, easy and both the audible and visual joint indicators give the installer 100% security.

Designed for use on Uponor MLC & SAC pipes, RTM is easy to install due to its revolutionary Tool-Inside technology. The Ring Tension Memory ensures perfect, long-lasting joints.

**➤ Introducing Uponor  
Uni-Pipe PLUS – The world's  
first Seamless Aluminium  
Composite Pipe – SACP**

At Uponor we strive to provide innovation which raises the standard for the quality and performance of plumbing installations. Uni-Pipe PLUS uses ground breaking technology to enhance the benefits of using multilayer pipe systems. More flexible, easier to use and even more reliable, the new pipes offer the designer and installer market leading performance whilst retaining all the benefits of a traditional MLCP.

*Compatible with all Uponor press systems, RTM and compression adapters.*

# ➤ MLC – RS Modular system

MLC pipes are fast becoming one of the most popular pipe materials used for the supply of water for heating and domestic services. It is faster to install, cleaner, quieter, cost effective and more secure.

#### **Suitable for:**

Heating - 10 bar @ 80°C  
Domestics - 10 bar @ 70°C

Sizes 16mm to 110mm

Lightweight, formstable and easy to install

No hot works required

Applications include: Domestic, healthcare, education, multi-residential and commercial

# RS Modular (Riser System)

Uponor's MLC RS fittings range is fast becoming the system of choice on many world-class projects. With just a small range of easy to install fittings, hundreds of connection possibilities can be created. The distinctive "click and lock" mechanism removes the need for overhead pressing allowing safe, quicker installation.

**1 SELECT THE BODY SIZE**

**'RS2'**  
(up to 75mm)
**OR**
**'RS3'**  
(for 90mm - 110mm)

**2 SELECT THE BODY CONNECTION TYPE**

Tee    45° Elbow    90° Elbow    Coupler    Reducer

**3 CHOOSE ADAPTERS TO SUIT CONNECTION**

Adapter    Female Thread    Male Thread    Flange

**Benefits:**

- Components with hundreds of fitting variations possible
- Greater flexibility and lower logistics costs thanks to minimal number of system components
- Optimum availability with less storage space and lower investment costs
- Quick to install and can be pressed at the workbench

## RS Modular

### RS-Press adapter MLC & SAC

Made of tin plated brass with stainless steel press sleeve. For connection of MLC to RS2/RS3 Bodies. **Note: All RS-Press Adapters must only be pressed using the approved Uponor UP75 or UP110 (1083612) tools.** \*S-Press PLUS connection.

# ➤ Underfloor Heating & Cooling

**Step 1 – Pipe** (Pipe & Accessories) **64**

**Step 2 – System** (Uponor Systems) **66**

**Step 3 – Manifold** (Manifolds & Water Temperature Controls) **73**

**Step 4 – Controls** (Underfloor Heating & Cooling Room Controls) **79**

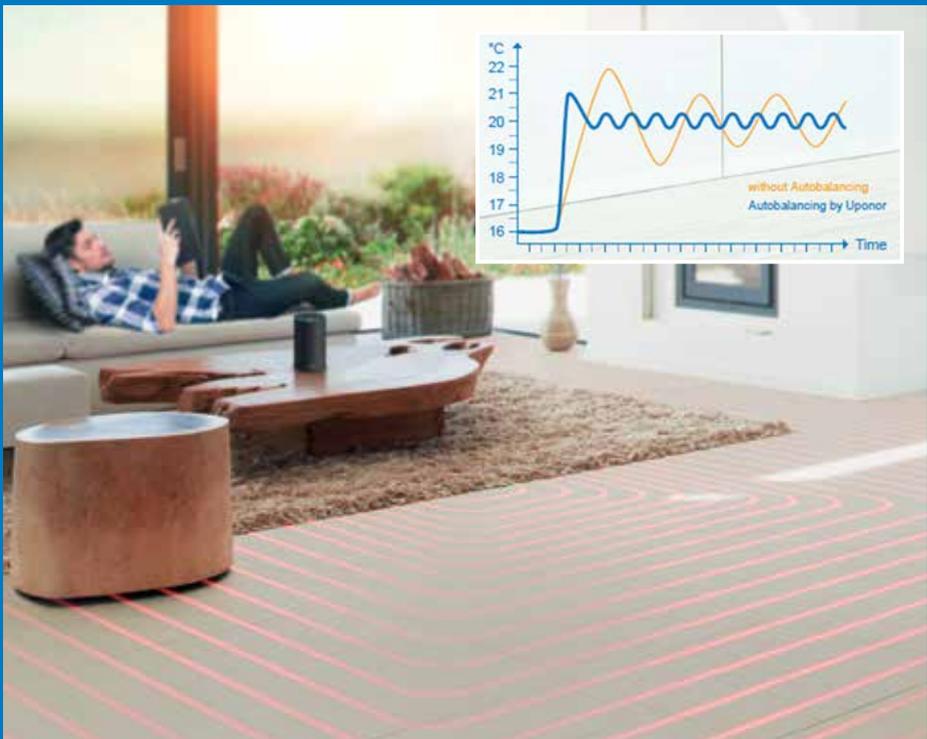

# ➤ Auto Balance Technology – Achieve up to 20% reduction in your heating bills.

Uponor Auto Balance Technology\* can generate up to 20% energy saving and 25% faster reaction compared to manually balanced systems. The technology is suitable for new build and renovation projects. In addition, Uponor's Auto Balance technology learns your usage patterns and adapts its control to provide the optimum thermal comfort.

\*All Uponor Smatrix controls include auto balance technology.

[www.uponor.com](http://www.uponor.com)

# ➤ Minitec – Low profile, high performance

Our Minitec system is a low profile underfloor heating solution which is only 15mm thick, making it ideal for renovation projects where you don't want to excavate the floors. Ideal for use with renewable technologies, Minitec heats up 60% quicker than standard underfloor heating systems and your installation will be fully completed in a matter of hours, ready to walk on after just 24 hours and ready to be used in three days.

[www.uponor.com](http://www.uponor.com)

- Bonds directly to the subfloor
- Ensures total pipe encapsulation
- New build & renovation projects
- Rapid heat-up times
- Compatible with a variety of floor finishes
- Suitable for installation on a variety of floor constructions

## Multilayer SAC pipe

All SAC pipes are manufactured as a 5 layer construction using a raised temperature polyethylene with a seamless aluminium diffusion layer (PERT-AL-PERT) acc. to BS EN 21003, suitable for application class 4 – Underfloor heating and low temperature radiators. Max design pressure 6 Bar at 70°C. Thanks to the new seamless technology, bend radii are up to 40% less than standard MLC.

## Pipe Accessories

### Pipe conduit

Made of high-density polyethylene. Supplied in coils. Details and prices of a wide range of other sizes of conduit are available on P.12. First number shown in description refers to I.D. of the protective tube. The second is the size of pipe suitable. N.B. Does not include pipe.

Description	Code	Qty
23 Black (16mm)	<b>1012864</b>	50m

### Pipe bend supports (plastic)

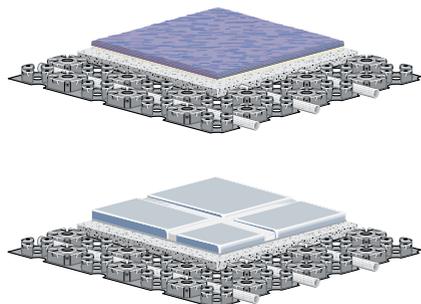

Bend supports are used where the PEX pipe is returning up from the floor towards the manifold. This creates a stable 90° bend making it easier for the installer to connect to the manifold.

# UFH Systems

## Minitec

### Benefits:

- Panel size: 1120 x 720mm.
- Total panel height: 12mm.
- Pipe dimensions: 9.9 x 1.1mm.
- Suitable for Uponor PE-Xa pipes.
- Diagonal pipe fixture for installation at 90° and 45° angles.
- Only 15mm build height including the screed.

## Minitec panel

Castellated pipe positioning panel for use on Minitec systems only. Incorporates a self adhesive backing that can be applied direct to suitable structural floors.

Description	Code	Qty
6.2m <sup>2</sup> pack (8 panels)	<b>1083866</b>	1

## Minitec edging strip

For use on Minitec system, to reduce thermal bridging. Made of polyethylene with self adhesive backing and PE skirt providing tight seal between edge strip and insulation. Thermal resistance 0.22m<sup>2</sup>K/W. Supplied in 20m rolls, 80x8mm HxD.

Description	Code	Qty
20m 80x8mm	<b>1005267</b>	20m

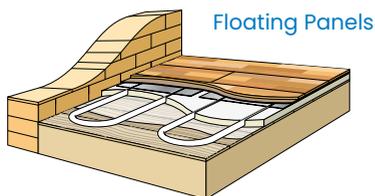

## Minitec expansion joint profile

Self-adhesive profile of polyethylene foam expansion strip and hard-PVC body, for separation of screed sections (e.g. in doorways), and to absorb expansion of screed.

Description	Code	Qty
0.9m 40x10mm	<b>1085980</b>	10
1.3m 40x10mm	<b>1085981</b>	10

## Siccus Mini

### Benefits:

- Tailored to low-height floor construction
- Only requires one installation to apply
- One-step installation ready
- Applicable for all floor constructions
- 15mm build height

### Siccus Mini panel

Grooved XPS panel with aluminum foil. Supplying pipes run to/from, the manifold to the heated area. Groove centres 100mm.

Description	Code	Qty
1200x600x15mm	<b>1122381</b>	10 panels (7.2sqm)

### Siccus Mini tilebacker panel

Synthetic fibre panel used to decouple Siccuss panel for tiled/stone floors.

Description	Code	Qty
1000x600x6mm	<b>1139793</b>	10 panels (6 sqm)

### Siccus Mini edge support strip

Synthetic fibre (polyester) strip, necessary for installations with tiles.

Description	Code	Qty
1000x45x15mm	<b>1139794</b>	1

### Siccus Mini tilebacker tape

Self adhesive tape roll for taping joints.

Description	Code	Qty
143mmx12m	<b>1139795</b>	1

### Siccus Mini 230v hotcutter

Tool with insert for hot cut grooves in Siccus Panels.

Description	Code	Qty
143mm	<b>1139796</b>	1

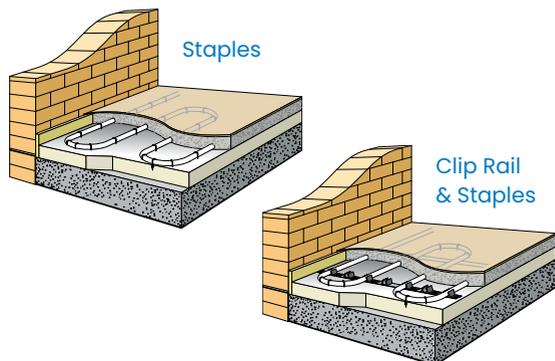

### Multi edging strip

For use on Siccus Mini system, to reduce thermal bridging. Made of polyethylene with self adhesive backing and PE skirt providing tight seal between edge strip and insulation. Thermal resistance 0.22m<sup>2</sup>K/W.

Description	Code	Qty
20m 80x8mm	<b>1005267</b>	20m

## Solid Screed Systems

### Benefits:

- Secure pipe fixing method.
- Can be fixed directly to existing floor grade insulation.
- Can accommodate various pipe layouts and spacings.
- Low cost fixing system.

## Fixings

### Tacker pipe clip standard

Used for fixing 16–20mm pipe to insulation. The barb length is 22mm and requires a minimum of 25mm insulation depth. For use with Uponor Kombi gun **1119039** page 112.

Description	Code	Qty
35mm clip	<b>1140123</b>	300
40mm clip	<b>1140159</b>	1000

### Tacker pipe clip long

Used for fixing 16–20mm pipe to most types of insulation. The barb length is 33mm and requires a minimum of 35mm insulation depth. For use with Uponor Kombi gun **1119039** page 112.

Description	Code	Qty
55mm clip	<b>1140124</b>	250

### Fix clamp track nail

Used to hold Fix Clamp Track 16–20 in position or to provide additional fixing where required. Length 65mm.

Description	Code	Qty
65mm	<b>1005291</b>	500

### Fix clamp track 16–20

Self-adhesive universal clip rail made of PP, for Uponor pipes, 16mm to 20mm. Can be combined in any length, suitable for cutting to size. May be used with Fix Clamp track nail 1005291 for a more secure fastening to your insulation. Allow 1m/2m<sup>2</sup>. Length of track: 1m. Width of track: 50mm. Space between pipe holders: 50mm.

Description	Code	Qty
16–20mm	<b>1135496</b>	100m

### Pipe positioning panel 16

Castellated pipe positioning panel, designed to simplify the installation of 16mm pipes. For installation over suitable floor grade insulation. Dimensions of each panel 1447mm(L) x 900mm (W) x 18mm (H). Each pack covers 10m<sup>2</sup>. Pipe spacing increments of 55mm/110mm/165mm/220mm/275mm/330mm.

Description	Code	Qty
Pipe positioning plate	<b>1016703</b>	10m <sup>2</sup>

## Insulation

### Multi edging strip

For use on solid screed floors as perimeter wall insulation, to reduce thermal bridging. Made of polyethylene with self adhesive backing. Thermal resistance 0.22m<sup>2</sup>K/W. Supplied in 50m rolls, 150mm (H) x10mm (D).

Description	Code	Qty
50m Roll	<b>1000080</b>	50m

### XPS Panels

Thermal Insulation made of XPS 300. Tongue and groove at sides for easy mounting. Thermal conductivity:  $\lambda = 0.034 \text{ W/mK}$ . EN 13501-1 fire classification: class E.

# ➤ Underfloor Heating Course

One day training course dedicated to underfloor heating is available either online or at our Watford HQ. The course provides a general overview on pipe technology, floor constructions, manifolds and controls.

For booking or further information, please email [marketing.uk@uponor.com](mailto:marketing.uk@uponor.com)

## Vario S Flowmeter Manifold

Uponor Vario S Flowmeter Manifold is a stainless steel manifold for use in radiant heating systems, where flow needs to be shown. The 3/4" Eurocone connectors allow for the connection of all Uponor pipe dimensions (Eurocone adapters page 76). Which makes this manifold universal for Uponor underfloor heating systems. Comes complete with fill and drain points, 1" swivel connectors and valve pins for actuator control. (Not suitable for 60°C+ systems).

### Vario S Lockshield Manifold

Uponor Vario S Lockshield Manifold is a stainless steel manifold for use in radiant heating systems, where balancing is done by a hex key. The 3/4 Eurocone connectors allow for the connection of all Uponor pipe dimensions (Eurocone adapters page 76). The manifold is universal for all Uponor underfloor heating systems. Comes complete with fill and drain points, 1" swivel connectors and valve pins for actuator control. (Suitable for radiator systems).

1" – 1" straight	<b>1059132</b>	1

## Commercial & Industrial Manifolds

### Vario PLUS Manifolds

Made of a reinforced glass fibre polyamide body. Its primary use is for underfloor heating and cooling applications as it is less prone to corrosion and condensation. It is available in modules of 1, 3, 4 and 6 loops with corresponding connection sets sold separately. The secondary connectors allow the connection of all Uponor pipe dimensions (Eurocone adapters page 76).

### Vario PLUS Accessories

A Vario PLUS termination kit is required to complete the Vario PLUS manifold installation. Our K1 kit contains brackets, end caps and thermometers. Automatic air vent available separately.

Description	Code	Qty
K1 Bypass kit	<b>1009209</b>	1
Vario PLUS automatic air vent	<b>1038166</b>	1

### Magna Manifold

Magna Manifold range of 1, 2 or 3 port units for connection with additional segments and basic kit. Supply-segment with control valves for pre-adjustment, return-segment with thermostat upper section including cap for locking. Uponor actuator can be mounted directly on the return. Heating loop connection for PE-Xa pipe 25x2.3 with compression adapter.

Description	Code	Qty
Magna manifold 1 x 25mm	<b>NEW</b> <b>1121535</b>	1

### Magna Accessories

Includes manifold brackets, filling valves, thermometer, manometer, endcaps and primary pipe connectors. **One kit is required per MAGNA manifold.**

Description	Code	Qty
Manifold Kit	<b>1045815</b>	1
1½" Ball valves (pair)	<b>1030135</b>	1

## Step 3 – Manifold

### Eurocone Compression Adapters

For connection of pipes to the Uponor UFH manifold range.

Description	Code	Qty
9.9x $\frac{3}{4}$ " PEX - 3 piece fitting	<b>1013426</b>	1
12x $\frac{3}{4}$ " PEX - 2 piece fitting	<b>1065282</b>	1
16x $\frac{3}{4}$ " PEX - 3 piece fitting	<b>1057441</b>	1
16x $\frac{3}{4}$ " MLC & SAC - 2 piece fitting (Chrome)	<b>1058090</b>	1
20x $\frac{3}{4}$ " PEX - 2 piece fitting	<b>1065290</b>	1

### Compression Repair Connector

For the repair of damaged 12, 16, & 20mm pipes. You will need to order 2 x adaptors from above section.

Description	Code	Qty
12/16/20	<b>1006641</b>	20

### Minitec Compression Coupling

For repair of damaged 9.9mm (Minitec) pipe. Please note to ensure a level finish as this sits higher than the Minitec Panel a channel will be required.

Description	Code	Qty
9.9-9.9mm	<b>1016690</b>	1

### Minitec Q&E Repair Connector

For repair of damaged 9.9mm (Minitec) pipe, includes 1 x connector and 2 x Q&E rings. \*M12 tool **1121157** and expander head **1119380** required see page 111.

Description	Code	Qty
9.9x1.1mm	<b>1005264</b>	10

### "Y" Compression Adapter

Compression splitter for use on Push 12 Pumpset. Pipe runs should be of equal length. **Supplied as a pair.**

Description	Code	Qty
2x9.9x $\frac{3}{4}$ " FT (Minitec)	<b>1016692</b>	1
2x $\frac{3}{4}$ "x $\frac{3}{4}$ " FT (12, 16, 20)	<b>1005675</b>	1

# Pump Groups

## Fluvia MPG-UK Mixing Control

Suitable for up to 16kW heating load, this compact, lightweight underfloor thermostatic mixing control, complete with Wilo Para pump, is ideal for local blending and pumping of UFH water. The unit has been designed for direct connection to heating manifolds and is supplied fully assembled with GI" swivel nuts and O ring seals supplied already configured for a L/H installation, but can easily reconfigure for R/H applications. This pump pack consists of two isolating ball valves, red lever flow inlet and blue lever return.

**We recommend to fit a strainer before the mixing valve.**

Description	Code	Qty
230v	<b>1094185</b>	1

## 230V Actuator

For motorised water temperature control when used with the Smatrix Move controller. Can be used with Viva 3 port mixing valve range.

Description	Code	Qty
230V	<b>1002357</b>	1

## Smatrix Move Controller

UFH water temperature control (supply) with outdoor sensor  
\*Please ensure Uponor actuator is used (1002357).

Description	Code	Qty
H X-157 wired	<b>1071693</b>	1

## Viva 3-port Mixing Valve

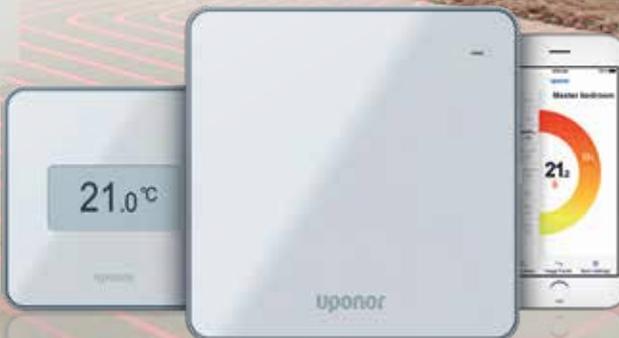

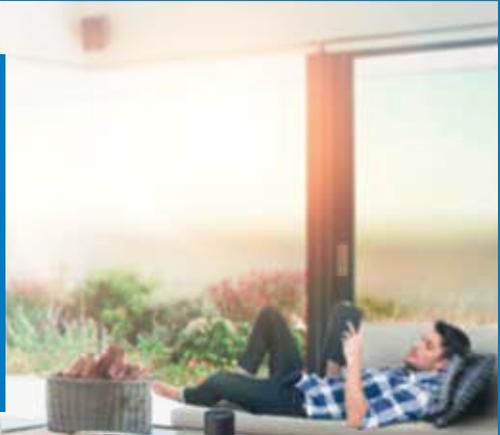

Made from DZR brass. Rotary shoe valve used to blend the system water to the required temperature.

Description	Code	Qty
¾" s Kv6.3	<b>1002014</b>	1

# ➤ Easy fit, smart kit

## New Smatrix Pulse room temperature control with full smart home connectivity

- Easy control: Intuitive control via the Smatrix Pulse app or your favourite smart speaker
- Personal comfort: Create your ambient comfort zone with individual preferences and adaptive comfort functions
- Energy efficiency: With innovative Autobalancing technology and smart analysis features

# Heating & Cooling Room Controls (Wired)

Welcome to Smatrix Pulse ; a smart home control system for your heating and cooling.

- Offers up to 48 heating control zones, all set up and controlled via an easy to use app.
- Thanks to this advanced control you can now adjust your heating with your voice via the Alexa or Google smart home controls.
- No internet? No worries! With the unique way our signals are sent, the unit will make its own network allowing for tethering to the control network when you are local.
- Backward compatible – all existing Smatrix thermostats will work with the new controls.

## Smatrix Pulse controller – wired

6 channel smart wired heating/cooling controller. This provides smart home control and allows for individual area control of up to 6 zones. Also provides central control of heating and cooling equipment.

Description	Code	Qty
X-245 Wired UK 6X	<b>1093018</b>	1

## Smatrix Pulse slave module – wired

6 channel module for the addition of 6 extra zones onto the main Smatrix Pulse wired controller.

Description	Code	Qty
M-242 Wired 6X	<b>1093134</b>	1

## Smatrix Pulse module

The Smatrix Pulse module forms part of the interface between your local controls and the cloud network to allow for the full app and voice control of your system. This is highly recommended to unlock all features of the system. **Good and reliable signal is required for the app control.**

Description	Code	Qty
R-208 Pulse Module	<b>1093030</b>	1

## Smatrix Base MODBUS RTU X-148

To complement the existing Smatrix Pro controller (X-147) which allows control with KNX systems. The X-148 operates with the Smatrix range of BASE Thermostats and Actuators, suitable for care homes, hospitals and multi-family homes using BMS controls.

Description	Code	Qty
MODBUS RTU X-148	<b>1120013</b>	1

# Smatrix Base – Multi-Zone Wired

## Smatrix Base Pro controller

A wired radiant heating/cooling controller. The controller sends and receives data to and from the room thermostats and sensors to control thermal actuators and other heating/cooling equipment. Can be added to Smatrix Base Pro interface to expand the system to up to 16 controllers depending on specific installation size.

Description	Code	Qty
X-147 UK 6X	<b>1087162</b>	1

## Smatrix Base interface

A wired heating / cooling interface unit when used with the X-147 controller allows control and adjustment of up to 16 controllers depending on specific installation size.

Description	Code	Qty
i-147 interface	<b>1087161</b>	1

## Smatrix Base slave module

A 6 channel controller slave module M-140. The controller slave can be added to a Smatrix Base or Smatrix Base Pro controller, to expand the available channels (6) and actuator outputs (6).

Description	Code	Qty
M-140 BUS 6X	<b>1071686</b>	1

## Smatrix Base dial thermostat

A wired dial single room temperature sensor. It measures the perceived room temperature and transmits the values to the wired controller.

Description	Code	Qty
T-145 BUS POD	<b>1086975</b>	1

## Smatrix Base public thermostat

A wired room thermostat for tamper proof locations. In addition, different sensor functions can be set via dip switches such as a floor sensor, a remote sensor or/and outdoor sensor.

Description	Code	Qty
T-143 BUS	<b>1086972</b>	1

## Smatrix Base digital thermostat

A wired digital thermostat with large backlit display. It measures and displays the room temperature, transmitting the values to the wired controller.

Description	Code	Qty
T-146 BUS	<b>1086976</b>	1

## Smatrix Base programmable thermostat

A wired digital programmable thermostat with Rh sensor and large backlit display. It measures/displays the room temperature and Rh, then transmits the values to the Smatrix Base controller.

Description	Code	Qty
+RH T-148 BUS	<b>1086977</b>	1

## Smatrix Base Style digital thermostat

A wired digital thermostat with Rh sensor and E Ink display. It measures/ displays the room temperature and Rh, then transmits the values to the Smatrix Pulse or Base Pro controller.

Description	Code	Qty
T-149 White	<b>1087813</b>	1
T-149 Black	<b>1087814</b>	1

## Smatrix Base Style sensor

A wired, discreet sensor for use with the Smatrix Pulse or Base Pro system. It measures room temperature and sends the information to the Pulse module or Base Pro interface.

Description	Code	Qty
T-141	<b>1087812</b>	1

# Smatrix Base – Multi-Zone Wired

## Smatrix floor sensor

The Smatrix floor sensor can be combined with selected Smatrix room thermostats.

Description	Code	Qty
S-1XX	<b>1071684</b>	1

## Smatrix Base bus cable

A 4 core Smatrix bus cable, individually shielded for interference protection.

Description	Code	Qty
A-145 50M	<b>1071670</b>	1

## Smatrix wall frame

The Smatrix wall frame for all Smatrix thermostats.

Description	Code	Qty
T-X A-1XX	<b>1086986</b>	1

## Smatrix Style adaptor

For installing the Smatrix Style thermostat onto a solid wall.

Description	Code	Qty
A-14X White	<b>1087821</b>	1
A-14X Black	<b>1087822</b>	1

## Smatrix relay module

A relay module used as an interface between a Uponor Smatrix control system and a heating/cooling source for switching between heating and cooling automatically.

Description	Code	Qty
H/C M-1XX 24V	<b>1083576</b>	1

## Thermal actuator

Suitable for use with the full Uponor manifold range. Includes open/closed indicator with pre-opened function for ease of install. Please ensure you select the correct actuator for your manifold.

Description	New Code	Qty
24V for Vario S Manifolds AC	<b>1013008</b>	1
24V for Magna & Vario Plus Manifolds	<b>1000138</b>	1

# Heating & Cooling Room Controls (Wireless)

Welcome to **Smatrix Pulse**; a smart home control system for your heating and cooling.

- Offers up to 48 heating control zones, all set up and controlled via an easy to use app.
- Thanks to this advanced control you can now adjust your heating with your voice via the Alexa or Google smart home controls.
- No internet? No worries! With the unique way our signals are sent, the unit will make its own network allowing for tethering to the control network when you are local.
- Backward compatible – all existing Smatrix thermostats will work with the new controls.

## Smatrix Pulse controller – wireless

6 channel smart wireless heating/cooling controller. This provides smart home control and allows for individual area control of up to 6 zones. Also provides central control of heating and cooling equipment.

Description	Code	Qty
X-265 Wireless UK 6X	<b>1093022</b>	1

## Smatrix Pulse slave module – wireless

6 channel module for the addition of 6 extra zones onto the main Smatrix Pulse wireless controller.

Description	Code	Qty
M-262 Wireless 6X	<b>1093133</b>	1

## Smatrix Pulse module

The Smatrix Pulse module forms part of the interface between your local controls and the cloud network to allow for the full app and voice control of your system. This is highly recommended to unlock all features of the system. **Good and reliable signal is required for the app control.**

Description	Code	Qty
R-208 Pulse Module	<b>1093030</b>	1

# ➤ Underfloor Heating packs compatible with Smatrix Pulse App

Underfloor heating packs come with everything required to successfully place UFH in a variety of different project types including screed, timber and low-profile applications. Once installed, the UFH system can be accessed remotely thanks to its Smatrix Wave Pulse app, available via the App Store or Google play.

Discuss your design with us: [enquiries.uk@uponor.com](mailto:enquiries.uk@uponor.com)

- Average pack up to 70 sq/m
- Screed – Timber – Minitec
- Smatrix Wave Pulse control
- New build or renovation projects

## Smatrix Wave - Multi-Zone Radio

### Smatrix Wave dial thermostat

A wireless dial single room temperature sensor. It measures the perceived room temperature, transmitting the values to the wireless control unit.

Description	Code	Qty
Standard T-165 POD	<b>1086981</b>	1

### Smatrix Wave public thermostat

A wireless single room temperature sensor for public buildings. In addition, different sensors functions such as a floor sensor, a remote sensor or outdoor sensor can be set via dip switch. It measures the perceived temperature and transmits the values to the wireless controller.

Description	Code	Qty
T-163	<b>1086979</b>	1

### Smatrix Wave digital thermostat

A wireless digital thermostat with large backlit display. It measures and displays the room temperature, transmitting the values to the wireless controller.

Description	Code	Qty
T-166	<b>1086982</b>	1

### Smatrix Wave Style thermostat

A stylish wireless digital thermostat with Rh sensor and E Ink display. It measures/displays the room temperature and Rh, and subsequently transmits the values to the Smatrix wireless controller.

Description	Code	Qty
T-169 White	<b>1087816</b>	1
T-169 Black	<b>1087817</b>	1

### Smatrix Wave programmable thermostat

A wireless digital programmable thermostat with Rh sensor and large backlit display. It measures and displays the room temperature and Rh, and subsequently transmits the values to the wireless controller.

Description	New code	Qty
+RH T-168	<b>1086984</b>	1

## Wired 230V Controls & Accessories

### Smatrix Wave Style room sensor

Discreet wireless sensor for use with the Smatrix Wave system. It measures room temperature and sends the information to the Smatrix App control.

Description	Code	Qty
T-161	<b>1087815</b>	1

### Smatrix wall frame

The Smatrix wall frame for Smatrix thermostats.

Description	New code	Qty
T-X A-1XX	<b>1086986</b>	1

### Smatrix sensor floor/remote

The Smatrix floor/remote sensor can be combined with selected room thermostats out of the Smatrix Base, Smatrix Wave portfolio.

Description	Code	Qty
S-1XX	<b>1071684</b>	1

### Smatrix Wave relay module

A wireless dual output receiver which can be used to switch different devices on or off. In addition it can be used for a wireless H/C switch over between the Smatrix room control system and the supply water controller or heat source.

Description	Code	Qty
M-161 2X	<b>1071658</b>	1

### Smatrix relay module

A relay module used as interface between a Smatrix control system and a heating/cooling source for switching between heating and cooling automatically.

Description	Code	Qty
H/C M-1XX 24V	<b>1083576</b>	1

### Thermal actuator

Suitable for use with the full Uponor manifold range. Includes open/closed indicator with pre-opened function for ease of install. Please ensure you select the correct actuator for your manifold.

Description	New Code	Qty
24V for Vario S Manifolds AC	<b>1013008</b>	1
24V for Magna & Vario Plus Manifolds	<b>1000138</b>	1

## Wired 230V Controls & Accessories

### Wired 230V wiring centre

Controls up to 8 room stats and 16 manifold actuators. Includes two volt free relays for pump and boiler control. Night setback facility when used with remote time clock.

Description	Code	Qty
White 230V	<b>1047456</b>	1

### Wired 230V digital programmable thermostat

Modern slim design, only 13mm depth after installation. Energy saving feature calculates heat up time of system. Includes holiday mode, temporary override and specified duration, 5/2 or 7 day programme, floor temperature control, lock facility, status display on current thermostat mode (requires 35mm electrical back box).

Description	Code	Qty
T-26 PRTE	<b>1058425</b>	1

### Smatrix Base 230V thermostat

Allows thermal comfort control with 230v supply without programming each zone. The Smatrix T-27 thermostat operates with the Smatrix floor sensor allowing both air and floor temperature control, the Smatrix 230v controller (1047456) and 230v Actuators (1013006).

Description	Code	Qty
T-27	<b>1120075</b>	1

### Wired 230V remote sensor

Optional 3m long sensor for control and regulation of remote temperature.

Description	Code	Qty
3m	<b>1047459</b>	1

### Thermal actuator

Suitable for use with the full Uponor manifold range. Includes open/closed indicator with pre-opened function for ease of install. Please ensure you select the correct actuator for your manifold.

Description	New Code	Qty
230V for Vario S Manifolds	<b>1013006</b>	1
230V for Magna & Vario Plus Manifolds	<b>1005605</b>	1

# ➤ Uponor HypAir Air admittance valves

Used to ventilate soil and waste pipes these HypAir air admittance valves ensure that waste water drains properly from a property. Without the correct ventilation, the operation of domestic appliances will cause air pressure changes inside the pipework which could cause waste traps on the system to lose their water seals, creating unpleasant odours.

- Available in two sizes for pipes 32-110mm
- Easy to install with push-fit or universal adapters
- Can be used where roof vents are either not possible or are undesirable
- Available from UK Stock

Description	Code	Qty
HypAir Admittance valve 70-110mm	<b>1134571</b>	1
HypAir Admittance valve 32-63mm	<b>1134572</b>	1

# ➤ Ecoflex Pre-Insulated Plastic Pipes For Heat & Water Distribution

Ecoflex is ideal for local district heating networks and domestic heat pumps, our range offers a selection of pre-insulated pipes, fittings, and accessories.

<b>Pipe and fitting selector tools</b>	<b>90</b>	<b>Wipex fittings</b>	<b>96</b>
<b>Pre-insulated pipes</b>	<b>92</b>	<b>Ecoflex pipe accessories</b>	<b>99</b>

- Ecoflex VIP Thermo available from 40mm-140mm
- Excellent insulation values prevent heat loss
- Greater pipe flexibility for easy installation
- Small outer jackets reduce coil weight
- All Ecoflex pipes are cut to size and delivered to site
- Available from UK Stock

# Pipe & Fitting Selector Tool

To help you select the correct fittings needed for each type of Uponor pipe

	Stage 1			Stage 2			Stage 3

140mm x 129/123	<b>1121641</b>	1

\*Please note all 4" joints require sealant tape to be applied

# Ecoflex Pipe Accessories

## Ecoflex elbow insulation set

For sealing elbow connections of Single, Twin and Quattro pipes in the trench. Comprises of insulating half-shells, stainless steel bolts and sealant. Only to be used with Uponor rubber end caps.

Description	Code	Qty
200/175/140	<b>1060985</b>	1

## Ecoflex 'T' insulation set

For sealing T-connections of Single, Twin and Quattro pipes in the trench. Comprises of insulating half-shells, stainless steel bolts and sealant. Only to be used with Uponor rubber end caps.

Description	Code	Qty
140/90/68	<b>1060986</b>	1
200/175/140	<b>1060982</b>	1
250	<b>1121805</b>	1

## Ecoflex 'H' insulation set

For sealing connections of single main lines (flow and return) to twin outlet lines in the trench. Comprises of insulating half-shells, stainless steel screws, plastic dowels and sealant. Only to be used with Uponor rubber end caps.

Description	Code	Qty
200/175/140	<b>1007355</b>	1

## Ecoflex straight insulation

For sealing straight connections of Single and Twin pipes in the trench. Comprises of insulating half-shells, stainless steel bolts and sealant. Only to be used with Uponor rubber end caps.

Description	Code	Qty
200/175/140	<b>1060984</b>	1
250	<b>1121806</b>	1

## Ecoflex reducer ring

Used with insulation sets.

Description	Code	Qty
200/68	<b>1060991</b>	1
250/250	<b>1121807</b>	1
250/200	<b>1121808</b>	1
250/175	<b>1121809</b>	1
250/140	<b>1122070</b>	1

# Ecoflex Pre-insulated Pipe Fittings, Components & Accessories

## Ecoflex jacket joint set

For sealing the jacket when connecting pipes together or when connecting to pre-insulated steel fittings. Contains two heat shrink sleeves.

Jacket Size	Sleeve Size	Code	Qty
200	250	<b>1084574</b>	1
250	315	<b>1083872</b>	1

## Ecoflex shrinkable sleeve for chamber

For sealing jacket pipe in the Uponor chamber outlet.

Description	Code	Qty
175/200mm	<b>1018380</b>	1
250mm	<b>1084575</b>	1

## Ecoflex sealing tape for chamber

Description	Code	Qty
50mm x 10m	<b>1018382</b>	1 roll

## Ecoflex entry sleeve NPW (Non-pressure, waterproof)

With heat-shrinkable sleeve. Can be used wherever there is no pressurised water. Non-pressure, waterproof.

Jacket Size	Sleeve Size	Code	Qty
68	110	<b>1018267</b>	1
140 & 145	175	<b>1018269</b>	1
175 & 200	250	<b>1018268</b>	1
250	315	<b>1083871</b>	1

## Wipex RS Adapter range

For use with Ecoflex Thermo piping systems. Allows connection to the Uponor Modular Riser System - see pages 37-39.

Description	Code	Qty
63 x 5,8	<b>1047013</b>	1
75 x 6,8	<b>1047014</b>	1
90 x 8,2	<b>1047015</b>	1
110 x 10,0	<b>1047016</b>	1

## Ecoflex trench warning tape

To mark the position of buried pipes. Red, tear-proof plastic tape imprinted with 'Uponor' and symbols for trench identification.

Description	Code	Qty
Warning tape roll 250m	<b>1018385</b>	1

## Ecoflex repair tape

Shrinkable tape used for sealing damaged outer jacket. Self adhesive layer to make application easier.

Description	Code	Qty
160mm x 10m	<b>1093120</b>	1

## Ecoflex cable Joiners

Used for jointing the Uponor Supra Plus cable in tees and other joints.

Description	Code	Qty
Termination, Straight and elbow joint	<b>1042310</b>	1 set
Tee Joint	<b>1042311</b>	1 set

## Ecoflex Supra PLUS connection set

Set includes Supra Plus control unit, 2 rubber end caps, 5m sensor cable, fixing screws, cable connections and full instructions. Control unit requires 230V supply.

Description	Code	Qty
25+32/68	<b>NEW 1120124</b>	1

# ➤ Uponor's Product Identification

As part of the requirements from the water regulators, products must be easily identifiable as being supplied by a particular manufacturer.

Uponor uses a range of common product markings:

# Uponor – Conditions of Sale

## 1. Interpretation

In these conditions—Buyer, means the company, firm, body or person buying the Goods and/or services or whose order for the Goods and/or Services is accepted by the Supplier;

Conditions means the terms and conditions set out in this document and include any special terms and conditions agreed in writing between the Buyer and the Supplier; any special terms shall prevail;

Contract means the contract for the sale of the Goods and/or Services to be provided by the Supplier pursuant to the Contract;

Goods mean the goods the Supplier agrees to supply; Services means the Services the Supplier agrees to supply;

Supplier means Uponor Limited or any other Uponor Group Company Writing includes fax, e-mail and other comparable means of communication

- 1.2 Any reference in these conditions to any provision of a statute shall be construed as a reference to that provision as amended, re-enacted or extended at the relevant time.
- 1.3 Any reference to any English legal concept or term shall, where relevant, be deemed to apply to the nearest analogous concept or term in any other jurisdiction.

## 2. Basis of the Sale

- 2.1 The Supplier shall sell the Goods and/or Services in accordance with any written quotation of the Supplier which is accepted by the Buyer or written order of the Buyer which is accepted by the Supplier, subject in either case to these Conditions, which shall govern the Contract to the exclusion of any other terms and conditions.
- 2.2 No variation to these Conditions shall be binding unless agreed in Writing by an authorised representative (Director / Company Secretary) of the Supplier.
- 2.3 Any typographical, clerical or other error or omission in any sales literature, quotation, price list, acceptance of offer, invoice or other document or information issued by the Supplier shall be subject to correction without any liability on the part of the Supplier.

## 3. Orders and Specifications

- 3.1 No order submitted by the Buyer is accepted by the Supplier unless confirmed in Writing by the Supplier's authorised representative or delivery of the Goods and/ or Services by the Supplier.
- 3.2 The Buyer is responsible for ensuring the accuracy of the terms of any order (including any applicable specification) and for giving the Supplier any necessary information relating to the Goods and/or Services within a sufficient time to enable the Supplier to perform the Contract in accordance with its terms.
- 3.3 The quantity, quality and description of and any specification for the Goods and/ or Services are those set out in the Supplier's quotation or the Buyer's order (to the extent accepted by the Supplier).
- 3.4 If the Goods are to be manufactured or any process is to be applied to the Goods by the Supplier in accordance with a specification submitted by the Buyer, the Buyer shall indemnify the Supplier against all loss, damages, costs and expenses incurred by the Supplier in connection with any claim for infringement of any patent, copyright, design, trade mark or other intellectual property rights. The Supplier gives no warranty that any Goods based on the specification of the Buyer will be fit for their intended purpose.
- 3.5 The Supplier may make any changes in the specification of the Goods and/or Services which are required to conform to any applicable statutory or EC requirements or which do not materially affect their quality or performance.
- 3.6 No order which has been accepted by the Supplier may be cancelled by the Buyer, except with the agreement in Writing of the Supplier and on terms that the Buyer indemnifies the Supplier in full against all loss (including loss of profit), costs (including the cost of all labour and materials used), damages, charges and expenses incurred by the Supplier as a result of cancellation.
- 3.7 All drawings, designs, specifications and other information provided by the Supplier are confidential and all rights of copyright ownership and other intellectual property rights in respect of them shall remain vested in the Supplier and shall not pass to the Buyer.

## 4. Price of Goods

- 4.1 The price of the Goods and/or Services shall be the price specified on the Supplier's confirmation of order or, if none, the price specified in the Supplier's quotation or, if none, the Supplier's published price list current at the date of supply of the Goods and/or Services shall apply.
- 4.2 The Supplier may vary the price of the Goods and/or Services at any time before delivery to reflect any change in the cost to the Supplier which is due to any factor beyond the control of the Supplier (including, without limitation, foreign exchange fluctuation, currency regulation, increase in the costs of labour, materials or other costs of manufacture), any change in delivery dates, quantities or specifications for the Goods

and/or Services which is requested by the Buyer, or any delay caused by any instructions of the Buyer or failure of the Buyer to give the Supplier adequate information or instructions.

- 4.3 All prices are given by the Supplier on an ex works basis and exclude VAT and other duties and the Buyer shall be liable to pay those duties and (subject to condition 5.6) the Supplier's charges for transport, packaging and insurance.
- 4.4 The Supplier may sue the Buyer for the price of the Goods, notwithstanding that title to them has not passed to the Buyer.

## 5. Terms of Payment

- 5.1 The Supplier may invoice the Buyer at any time for the price of the Goods and/or Services or part of it and, without limitation, may invoice the Buyer in respect of any instalment of an order. Unless the Supplier specifies otherwise (in writing), the Buyer shall pay the invoice (in full without any set off, deduction or counterclaim) within 30 days of the end of the calendar month in which the invoice is dated. Time of payment of the price shall be of the essence of the Contract.
- 5.2 If the Buyer fails to make any payment by the due date or the Supplier has reasonable grounds for believing that the Buyer will not make any payment then, without prejudice to any other right or remedy available to the Supplier, the Supplier may cancel the Contract or suspend any further deliveries to the Buyer.
- 5.3 If the Buyer fails to make any payment on the due date then without prejudice to any other right or remedy available to the Company the Company shall be entitled to charge the Buyer interest (both before and after any judgment) on the amount unpaid at the rate of 8% per annum above Bank of England base rate from time to time until payment is made (a part of a month being treated as a full month for the purpose of calculating interest).

## 6. Delivery, Returns and Performance

- 6.1 Unless otherwise agreed in writing by the parties, delivery of the Goods shall be made by the Supplier "ex works" as that term is defined in "Incoterms" – the international rules for the interpretation of trade terms of the International Chamber of Commerce sales dated 2000. A cost for delivery will be provided by the supplier to the buyer in each and every instance.
- 6.2 Any dates quoted for delivery of the Goods and/or Services are approximate only, and the Supplier shall not be liable for any delay in delivery of the Goods and/or Services.
- 6.3 If the Buyer fails to take delivery of the Goods or fails to give the Supplier adequate delivery instructions then, without prejudice to any other right or remedy available to the Supplier, the Supplier may store the Goods until actual delivery and charge the Buyer for the reasonable costs (including insurance) of storage and/or sell the Goods at the best price readily obtainable and (after deducting all reasonable storage and selling expenses) account to the Buyer for the excess over the price under the Contract or charge the Buyer for any shortfall below the price under the Contract.
- 6.4 The Buyer shall comply with all laws governing the importation of the Goods into the country of destination.
- 6.5 Minimum individual order value to include free delivery is >£500.00 net (or currency equivalent & excluding VAT). Please contact the supplier for any orders below this value for delivery costs. This term excludes Ecoflex pipe systems (see Item 6.9 below) and any other items not included within our price guide.
- 6.6 Delivery of the goods that are requested direct to site or another third party address, will be subject to additional surcharges over and above delivery costs.
- 6.7 Where a next day service is required, customers should contact the supplier for a delivery charge quotation for each and every order.
- 6.8 For deliveries of Ecoflex pipe systems, no returns are allowed and the Buyer needs to request a delivery cost from the supplier for each and every order
- 6.9 Retention to title: Goods remain the property of Uponor Limited until paid for in full. Any query regarding this delivery should be notified in writing to Uponor Limited within 3 working days of receipt of the goods. As signed for proof of delivery (from whomever signs) will be deemed as acceptance of the goods as listed and in good condition.
- 6.10 No returns will be allowed without prior approval from the supplier.
- 6.11 All prices are based on ex-works Worcester, UK and delivery costs will be additional to prices quoted.

## 7. Risk and Property

- 7.1 Risk of damage to or loss of the Goods shall pass to the Buyer at the time of delivery or, if the Buyer wrongfully fails to take delivery the time when the Supplier has tendered delivery of the Goods. The Buyer should insure the Goods accordingly.
- 7.2 Notwithstanding delivery and the passing of risk in the Goods, or any other provision of these Conditions, the property in the Goods shall not pass to the Buyer until the Supplier has received in cash or cleared funds payment in full of the price of the Goods and all other goods and services agreed to be sold by the Supplier to the Buyer for which payment is then due.

- 7.3 Until such time as the property in the Goods passes to the Buyer, the Buyer shall hold the Goods as the Supplier's fiduciary agent and bailee, and shall keep the Goods separate from those of the Buyer and third parties and properly stored, protected and insured and identified as the Supplier's property, and shall not be entitled to dispose of the Goods.
- 7.4 Until such time as the property in the Goods passes to the Buyer, the Supplier may at any time require the Buyer to deliver up the Goods to the Supplier and, if the Buyer fails to do so forthwith, enter upon any premises of the Buyer or any third party where the Goods are stored and repossess the Goods.
- 8. Warranties and Liability**  
Warranties
- 8.1 Subject to the conditions set out below, the Supplier warrants that the Goods will correspond with their specification at the time of delivery and will be free from defects in material and workmanship for a period of 12 months from purchase (with accompanying proof of purchase).
- 8.2 This warranty is given by the Supplier subject to the following conditions:
- 8.2.1 the Supplier shall be under no liability in respect of any defect arising from any drawing, design or specification supplied by the Buyer;
- 8.2.2 the Supplier shall be under no liability in respect of any defect arising from fair wear and tear, wilful damage, negligence, abnormal working conditions, failure to follow the Supplier's instructions (whether oral or in Writing), misuse or alteration or repair of the Goods without the Supplier's approval;
- 8.2.3 this warranty does not extend to parts, materials or equipment not manufactured by the Supplier, in respect of which the Buyer shall only be entitled to the benefit of any such warranty or guarantee as is given by the manufacturer to the Supplier.
- 8.3 Subject as expressly provided in these Conditions, all warranties, conditions or other terms implied by statute or common law are excluded to the fullest extent permitted by law. Without limitation, the Supplier does not warrant the accuracy or otherwise of any design, drawing, specification, instructions, other information or advice that it provides as part of the Services and/or as ancillary information in relation to the Goods.
- 8.4 Any claim by the Buyer which is based on any defect in the quality or condition of the Goods or their failure to correspond with specification shall be notified in writing to the Supplier within 7 days of delivery or (where the defect or failure was not apparent on reasonable inspection) within a reasonable time after discovery of the defect or failure, but, in any event, within 12 months of purchase (with accompanying proof of purchase). If delivery is not refused, and the Buyer does not notify the Supplier accordingly, the Buyer may not reject the Goods and the Supplier shall have no liability and the Buyer shall pay the price as if the Goods had been delivered in accordance with the Contract.
- 8.5 Where any valid claim is made in accordance with this Clause 8, the Supplier may replace or repair the Goods (or the part in question) or re-supply the Services (or the part in question) free of charge or, at the Supplier's sole discretion, refund to the Buyer the price of the Goods or Services (or part of it), but the Supplier shall have no further liability to the Buyer.
- General Liability
- 8.6 Notwithstanding anything else in this Contract, neither party's liability in respect of death or personal injury caused by that party's negligence shall be limited.
- 8.7 The Supplier shall not be liable to the Buyer for loss of contracts, profits, anticipated savings, revenue, business, stoppage to other work or indirect or consequential loss (whether caused by the negligence of the Supplier, its employees or agents or otherwise) in connection with this Contract.
- 8.8 Notwithstanding any other provision in the Contract except Condition 8.5, the entire liability of the Supplier under or in connection with the Contract shall not exceed the sum paid to the Supplier by the Buyer for the Goods or the Services (or both, where both Goods and Services are to be supplied) which are the subject of the claim in question by the Buyer.
- 8.9 The Supplier shall not be liable for any breach of its obligations to the extent that the Supplier is prevented or hindered from complying with them by "Force Majeure".
- 8.10 "Force Majeure" means any cause beyond the reasonable control of the Supplier including (without limitation) strikes, lock-outs, labour.
- 9. Insolvency of Buyer**
- 9.1 Without prejudice to any other right or remedy available to the Supplier, the Supplier may cancel the Contract or suspend any further deliveries without any liability to the Buyer, if:
- 9.1.1 the Buyer is unable to pay its debts, makes any voluntary arrangement with its creditors or (being an individual or firm) becomes bankrupt or (being a company) becomes subject to an administration order or goes into liquidation; or
- 9.1.2 an encumbrancer takes possession, or a receiver is appointed, of any of the property or assets of the Buyer; or
- 9.1.3 the Buyer ceases, or threatens to cease, to carry on business; or
- 9.1.4 the Supplier reasonably believes that any of the foregoing events is about to occur in relation to the Buyer and notifies the Buyer accordingly.
- 9.2 If the Goods and/or Services have been delivered but not paid for and the Supplier cancels the Contract under Conditions 5.2 and/or 9, the price shall become immediately due and payable notwithstanding any previous agreement or arrangement to the contrary.
- 10. Non-standard Orders**
- 10.1 Where the Buyer orders Goods or materials of a type, size or quality not normally produced by the Supplier or Services not normally performed by the Supplier, the Supplier shall use all reasonable endeavours to execute the order but, without prejudice to any other provision limiting the Supplier's liability, if it proves impossible, impracticable or uneconomical to carry out or complete the order, the Supplier may cancel the Contract or the uncompleted balance of it without penalty and the Buyer shall only be liable to pay for the part of it actually delivered or performed.
- 11. Export Sales**
- 11.1 Subject to Condition 6.1, where Goods are sold on the basis of international trade terms, they shall be defined in accordance with "incoterms" – the international rules for the interpretation of trade terms of the International Chamber of Commerce sales dated 2000.
- 11.2 Where Goods are sold FOB, the Supplier shall not be required to give the Buyer the notice specified in Section 32(3) of the Sale of Goods Act 1979.
- 11.3 Unless otherwise agreed by the Supplier in Writing, the price of the Goods and/or Services shall be secured by an irrevocable letter of credit satisfactory to the Supplier and established by the Buyer in favour of the Supplier immediately upon receipt of the Supplier's confirmation of order form and confirmed by a United Kingdom bank acceptable to the Supplier. The letter of credit shall be for the price payable plus any duties and taxes payable to the Supplier and shall be valid for the longer of six (6) months or any period estimated by the Supplier for delivery of the Goods and/or Services.
- 12. Packing**
- 12.1 Unless otherwise agreed in Writing by the parties, the price specified by the Supplier excludes the cost of packing cases and packing materials, for which the Buyer shall be additionally liable. If the Supplier notifies the Buyer that packing cases and/or materials are returnable, then the full cost of these is payable by the Buyer if the Buyer does not return them in good condition to the Supplier either (at the Supplier's option) carriage paid or in the Supplier's vehicle within three (3) months of their delivery to the Buyer. Where not returnable, the Buyer will dispose of all packing in accordance with the regulations (whether statutory or otherwise) relating to the protection of the environment.
- 12.2 The Supplier shall use all reasonable endeavours to ensure, where necessary, the appropriateness of packing before despatch, but the Supplier shall not be liable for any damage to or loss of Goods between despatch from the Supplier and delivery in accordance with this Contract.
- 13. General**
- 13.1 The Supplier may perform any of its obligations or exercise any of its rights under this Contract through any other member of its group.
- 13.2 The Buyer may not assign any of its rights or obligations or mortgage, charge (otherwise than by floating charge) any of its rights under this Agreement without the prior written consent of the Supplier.
- 13.3 Each party acknowledges that, in entering into this Contract, it does not do so on the basis of and does not rely on any representation, warranty or other provision except as expressly provided in this Contract and all conditions, warranties or other terms implied by statute or common law are excluded. This condition shall only apply to the extent permitted by law.
- 13.4 Any notice required or permitted to be given by either party to the other shall be in Writing addressed to that other party at its registered office or principal place of business or such other address as may at the relevant time have been notified pursuant to this provision to the party giving the notice.
- 13.5 No waiver by the Supplier of any breach of the Contract by the Buyer shall be considered as a waiver of any subsequent breach of the same or any other provision.
- 13.6 If any provision of the Contract is held by any competent authority in UK law to be invalid or unenforceable in whole or in part the validity of the other provisions of the Contract and the remainder of the provision in question shall not be affected.
- 13.7 A person who is not a party to the Contract has no rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of the Contract.
- 13.8 The Contract shall be governed by and construed in accordance with the laws of England, and the parties submit to the non-exclusive jurisdiction of the English courts.
- 13.9 When supplied as B2B EEE the producer invokes regulation 9.2 and passes all WEEE obligations to the end user.

Uponor Limited (“Uponor”) guarantees [to the original purchaser/customer] that pipes and fittings sold by it are free of defects in materials or manufacture under normal conditions of use for a period of 25 years and in case of electrical and mechanical products for 2 years from the date of installation. This guarantee only applies to the products stored, installed, tested and operated in accordance with the fitting instructions issued by Uponor and valid at the time the products were installed.

Where a claim is made during the guarantee period and products are proven to be defective in materials and/or manufacture at the time of delivery, Uponor will supply replacement products free of charge. This is the exclusive remedy under this guarantee.

Uponor disclaims any warranty or guarantee not expressly provided for herein, including any implied warranties of merchantability or fitness for a particular purpose. Uponor further disclaims any and all responsibility or liability for losses, damages and expenses, including special, direct, indirect, incidental and consequential damages, whether foreseeable or not, including without limitation any loss of time or use or any inconvenience arising from the ownership, installation or use of the products sold hereunder.

This guarantee does not affect the statutory rights of the consumer.
